REPLY

(To be written on this margin)

Office of the Dewan of Mysore.

NOTE

Dated 12th August 1915

ma 224-14

L-7. mib 323 9/15

The Bathing Ghaut at Paschimavahini is situated at a picturesque spot amidst fine natural surroundings. But for want of proper organization and supervision, rank vegetation is allowed to grow in the locality and it is feared that sanitary regulations are not strictly enforced. The place is one which might be made a beauty spot if a little care and attention is bestowed by the local authorities and residents.

2. The Deputy Commissioner, Mysore District, may be requested to submit proposals for improving the Ghaut and its surroundings and maintaining the same in a satisfactory condition.

States that the cost of effecting improve-
ments suggested by the Sanitary Engineer
to Paschimavaham is roughly estimated
at Rs 10000 and that it may be met
~~from~~ by a special grant from State Funds

(10) Govt called for proposals to improve
the bathing ghats in Paschimavaham
The Executive Engineer suggests the
improvements Nos 1-7 in his preliminary
reports & these are estimated to cost Rs 10000

The major part of this estimate is probably
in connection with ^{widening} ~~enlarging~~ the road way
on the bridge. The Municipal Council
plead inability to provide funds even to
carry out minor sanitary improvements
to their town which are considered more
pressing than the improvement to the
bathing ghats. The points for consideration
are "whether the improvements suggested are suitable
and if so whether they are to be carried out at once
and whether the cost will be met by a State grant"
Submitted with reference to the Director's
Note dated 12th August 1915--

Office of the Deputy Commissioner, Mysore District.

Dated Mysore, 11th September 1915.

From

A. Subramanya Iyer, Esquire, B. A.,
Deputy Commissioner, Mysore District.

To:

V. R. Thyagaraj Iyer, Esquire, M. A.,
Secretary to the Government of His Highness the Maharaja
of Mysore, Revenue Department, B a n g a l o r e.

Sir,

With reference to your letter No. 1528/P. S. dated 18th August 1915 calling for proposals for improving the Bathing Ghat and its surroundings at Paschimavahini, I have the honor to enclose herein copy of a joint report drawn up by the Sub Division Officer, French Rocks Division and the District Sanitary Officer of this District.

It will be seen from the above report that there are several bathing ghats at Paschimavahini belonging to private persons, that the one Ghat belonging to the Palace is kept clean, that the Ghat belonging to one Pasare Govinda Setty of Mysore and its surroundings are on the whole neglected and dirty, that the Municipal Council of Seringapatam has to take action to get the owner of this Ghat to keep it and its surroundings in a proper condition and that the Ghat belonging to Kodandarama Setty also requires attention on the part of the owner as there are heaps of earth in front of the Chattam building attached to the Ghat as also a rubbish heap at one end of the Ghat. It is also reported that the owners of the Ghats adjoining the bridge on the eastern side on the opposite bank are not known, that the Ghat belonging to Scotha Sani is not being swept daily and that the steps behind Subbanna's Chattam are almost buried in the mud deposited over them.

Since several Ghats being within the limits of Seringapatam -

it is suggested that a full-time sweeper may be a -

Ghaut at Pochinavahin

appointed by the Council to remove rubbish daily from the places and collect the same for being periodically sold as the owners of these Ghats cannot be expected to employ individually separate sweepers for the purpose.

It may be stated here that before Paschimavahini was included within the limits of Srirangapatam Municipality, the District Board had employed a sweeper for conserving the place daily and his services were dispensed with a few years back. I am of opinion that the owners of several Ghats should be served with notices by the Municipal Council to keep the Ghats in a proper condition and to get the rank vegetation removed within a certain time and that in default of their so doing, the Council should get the work done and recover the cost from the owners. The Municipal Council should also have at least one sweeper for daily conserving the place. Needful instructions have been issued in the matter.

I have the honor to be,

Sir,

Your most obedient servant,

Deputy Commissioner,

Mysore District.

Be to end 117-1-2

Copy of joint report drawn up by the Sub Division Officer,
French Rocks and the District Sanitary Officer, Mysore District.

-----ooo{0}ooo-----

"As required by the Deputy Commissioner, Mysore District in his memo No. 563-4 dated 19th Instant forwarding copy of letter No. 1528 L. B. dated 18th August 1915 from the Secretary to Government of Mysore, Revenue Department, re the condition of bathing ghats at Panchimavahini, we the undersigned have jointly inspected the said bathing ghats at Panchimavahini on the 26th Instant and note the following.-

2. There are several bathing ghats on either side bank of the river at Panchimavahini and they belong private persons excepting the one belonging to the Palace. The Palace Ghat is kept clean, neat and tidy.

3. Among the private ones, the first beginning from Seringapatam side along the Mysore-Seringapatam Road belongs to one Pasare Govinda Setty of Mysore. A few slabs of the last four or five rows of steps in this ghat require to be reset and rank vegetation grown in its vicinity has to be removed. The floors of the Mandap and the Chattram are in disrepair and these buildings and their surroundings are on the whole neglected and dirty. The Seringapatam Municipality whose jurisdiction extends over this area might call upon the owner to attend to these and also upon one Balakrishna Setty owner of the assessed land adjoining this ghat on the south to keep the land free from undergrowth.

4. The next ghat belonging to one Pandit Puttanna of Seringapatam is kept tolerably clean as the owner seems to visit the place often. The Government waste-land overgrown with ~~thick~~ jungle by its side on the North needs attention from the Local Revenue or Municipal authorities.

5. Next to Pandit Puttanna's is Kodandarama Setty's ghat. Its steps are kept clean. There ^{are} ~~are~~ unsightly earth heaps in front of the Chattram building attached to the ghats and a rubbish heap at one end of the ghat. The surroundings of the dilapidated

"Vrindavana" at the other end are not clean. The huge branch of Peepal tree overhanging the steps where people actually bathe requires to be lopped. Here also the Municipality of Seringapatam town can get the needful done by the owner by serving a notice on him.

6. Who the owner of the ghats adjoining the bridge on the Eastern side on the opposite bank is not known. Several of its steps need repairs and the Government waste lands overgrown with vegetation at the Eastern end of these ghats deserves attention from the Local Revenue or Municipal authorities.

7. The ghat belonging to Seetha Sani higher up the stream does not appear to be swept daily.

8. On the same bank, but to the West of the bridge quite close to it is Subbanna's Chattram with a few steps built at the back. They are almost buried in the River silt deposited over them.

9. Almost all the owners of these ghats have employed a servant each on a monthly salary of Rs. 2/- or Rs. 2-8-0 to look after the Chattrams adjoining to the ghats. They sweep merely the buildings and do nothing more. Sweepings and ashes are allowed to remain where they are thrown until cultivator takes them for manure. As the ghats are within the limits of the Seringapatam Municipality, it might appoint a full time sweeper to remove such rubbish daily bodily from these places and collect the same at a distance awaiting its periodical sale by auction. It may not be practicable for the owners of all ghats to employ one individual in that manner, nor can they individually be expected to employ separate sweepers."

"C o p y", "

Sir

With reference to
Your letter no 226 dated
the 11th Sep 1915 in the matter
of Sanitation of the bathing
Ghat at Paschimavahini
I am directed to observe
that your suggestions
have reference only to
the maintenance of the Ghat

in a tidy condition and
do not deal with the
question of improving the ghats & their
surroundings.

I am therefore to invite
your attention to para 2
of this office letter no 1528
dated 18th Aug 1915 and to
request the submission of
proposals to improve the bathing
ghats & their surroundings.

I am also to enquire
if the proprietary rights
in the bathing ghats constructed
by private individuals have
been vested in them and if
not, how they can be made
to keep them in a tidy condition
as suggested in your letter
under advertisement.

K Matthan, Esq, B.A.,

Deputy Commissioner, Mysore District

B Hanumaniah, Esq, B.A., B.L.,

Secretary to the Government of His Highness the
Maharaja of Mysore, Revenue Departments,
Bangalore

Sir,

With reference to the correspondence ending with your letter No 3023/41 117-15-3 dated 1st October 1915 re proposals for improving the bathing ghats and their surroundings at Paschimavahini, I have the honor to enclose herein a copy of the report received from the Executive Engineer, Sanitary Division together with a plan. The Sanitary Engineer proposes improvements at a total cost roughly estimated at Rs 10,000. A copy of his letter No 1382 dated 6-12-1916 is also herewith transmitted.

The proposal appears to be suitable. As regards the cost of the improvements, I would recommend that it may be met by a special grant from State Funds having regard to the great importance of the place. The Municipal Council of Seringapatam has no funds at its credit for this work.

I have the honor to be

D. Channarayana
for Deputy Commissioner,
Se Mysore District

Preliminary report on proposed Improvements to Paschimavani
vahanis

The importance of Paschimavani is fourfold. It is a place of pilgrimage. It is an important road junction where the Madras Cannanore and Manantoddy roads meet and a branch of the Kaveri is bridged. It is an important Railway Station exporting large quantities of grain and timber. Lastly it possesses a certain amount of antiquarian and military interest, being the position of a battery of siege guns that breached the Serinrangapatam Fort in 1799.

It has a number of choultries and bathing Ghats very picturesquely situated along the banks of the winding river. A few of these are kept trim and tidy but others look timeworn and dilapidated and the surroundings are overgrown with jungle. There are a few dwelling houses which look very poor indeed.

The roads are narrow in places and have many awkward turns and corners.

The following improvements are now suggested ---

(1) The bridge across the Kaveri is a main feature of the place. It is proposed to widen the roadway above from 18 feet to 26 feet. The addition on each side being supported on masonry piers arched over. The existing clumsy parapet wall will give place to a new ornamental masonry parapet. As the road curves rather sharply at the two ends of the bridge, some kind of ornamental railing on masonry will be fixed for a length of 100 feet along the centre of the road at the two ends as shown in the plan in order to regulate the traffic. A lamp post will be fixed at each end of the railing.

(2) The sharp corners at the points A, B, and C of the road will be eased after acquiring portions of the houses as shown.

(3) The approaches to the bridge on either side from K - to F and G to H will be realigned and widened as marked in - red

(4) The portion of which runs in embankment will be -- fenced by a decorative railing over a masonry wall

(5) The tunnels A and H which are taken as the limits of Paschimavahini will also be widened and built over with ornamental parapets

(6) The existing cart-stand at K will be shifted to L-- and the space may be laid out artistically

(7) The whole area will be cleared of jungle. The President of the Seringapatam Municipality will be requested to address the owners of several Choultries and Bathing Ghats to - keep their premises clean and clear of jungle and attend to - the annual repairs of their buildings as without their co-operation any public improvements will be out of place

The cost of the proposals is roughly Rs 10,000 --- Details estimate and plans will be worked out on the above - lines, if approved

MYSORE P. W. DEPARTMENT.

TO THE DEWAN OF MYSORE
FOR ORDERS

535-2
23 3 17

Subject - Estimate amounting to Rs 23,100
for improving Paschimavahini.

In accordance with your orders dated
the 12th August 1915 to the Revenue Secre-
tariat quoted in the margin-the Deputy

Commissioner-

"The bathing place should be made a beauty spot by removing rank vegetation allowed to grow in the locality and by enforcing strictly the sanitary regulations"

er, Mysore
District
seems to
have sub-
mitted to

Government in the Revenue Department pro-
posals in the rough, formulated by the
Sanitary Division, for beautifying the
place and otherwise making it sanitary.
It was ascertained from the Deputy Com-
missioner that the above proposals were
under the consideration of Government
vide his D.O. letter No. A.C.186/L.H.15-16
dated the 9th February 1917 to the Execu-
tive Engineer, Sanitary Division.

R/S

2. On receipt, in this office, of a copy of the preliminary report submitted to Government by the Deputy Commissioner, I called for detailed estimation on the lines approved by this office, and the Sanitary Division has now sent up the accompanying estimate amounting to Rs 23,100 for the following items of work.-

<u>Description of work.</u>	<u>Estimated cost</u> Rs
(1) Widening the bridge across the river at Pechimavahini (Madras-Cannanore road)	13,141
(2) Improving the road from Banpariddadi channel to waste water channel.....	3,393
(3) Improving the station road	505
(4) Forming a new road along the cart stand..	90
(5) Improving Palhalli road	323
(6) Improving the tunnel across the waste water channel	149
(7) Laying out a triangular plot of land and converting it into a garden.....	2,725
(8) Constructing a new cart stand near the railway station	979
(9) Improving tunnel across the Banpariddadi channel	694
	21,999
Total, with contingencies....	<u>23,100</u>

3. The estimates were prepared under the direction of Mr. Dhore and have been countersigned by that officer. They have been scrutinised by this office. The rates allowed are those prevailing in Mysore. The report attached to the estimate explains the proposals.

Dr. F

4. Under the item "widening the bridge," a lump sum provision of Rs 2,100 has been allowed for coffer dam, compensation and barricading. Detailed estimates will be called for for this item before the work is commenced.

5. If the proposals are acceptable, orders may kindly issue as to the source from which the estimated cost is to be met.

For Secretary to Government,

 P.W. Department.

Bangalore,

23rd March 1917.
